Information Bulletin No. 97-048

To: All Field Officials

From: Leasing Team

Subject: Allocation of FY98 Federal Building Fund

The purpose of this Information Bulletin is to notify all field offices of the allocation of the FY98 Federal Building Fund.

Cost targets for space have been allocated based on a pro-rata share of employees located in leased space, considering the differing market conditions at each location. The 1830 fixed cost account is paying for the National Training Center for the first time which should provide for increased Management, Land and Resources funds distribution to each state.

The Centers in Denver are each allocated their individual cost target to provide the same incentives for management of their funds as the states. The following chart shows the amount to be allocated to each state and the Centers for FY98. The amount of funding provided for FY97 is provided for comparison purposes.

Computations for FY99 and beyond will use the figures in effect at the beginning of FY98 to make projections. If reductions are made in FY98, the figures in effect prior to the reductions will be used to calculate the amounts allotted for FY99. Thus, if a state is successful in making reductions after the beginning of FY98, those reductions will not cause a reduction in allotted funding until FY2000.
